EVENT THEMES

Agriculture and Rural Development

Developing solutions keeping n mind the need to enhance the primary sector of India -Agriculture.

Robotics and Drones

Design a solution that can solve some of the challenges in India such as handling medical emergencies, rescue operations etc.

Care and Biomedical

Cutting-edge technology in these sectors continues to be in demand. Recent shifts in healthcare trends, growing populations also present an array of opportunities for innovation. Solutions could be in the form of waste segregation, disposal, and improve sanitization system.

Sustainable Clean and Green Technology/Waste Management

Solutions could be in the form of waste segregation, disposal, improve sanitization system etc.

Smart Education

Smart education,a concept that describes learning in digital age. It enables learners to learn more effectively, efficiently, flexibly and comfortably.

Smart Automation

Ideas focused on the intelligent use of resources for transforming and advancements of technology with combining the artificial intelligence to explore more various sources and get valuable insights.

ABOUT EVENT

A hackathon is an event where participants (either as a team or individually) come up with a project/proof of concept based on the theme or problem statement that is given beforehand, and present it in front of the judges. Winners are decided based on their presentation and the project built.

Our hackathon event will span for 3-days, during which we will have some activities and light hearted games for refreshment.

We will also be having comfortable stays and accommodation to all the participants for all three days with some fun activities and games.

ABOUT UNIVERSITY

K.R. Mangalam University is the fastest-growing higher education institute in Gurugram, India. Since its inception in 2013, the University has been striving to fulfil its prime objective of transforming young lives through ground-breaking pedagogy, global collaborations, and world-class infrastructure.
